Sustainability

In an era where environmental consciousness is paramount, the travel industry stands at a crossroads. **At Xperience we recognize that the future of travel lies in sustainability.** That's why we started a partnership with Go Forest.

Go Forest is a young company that works together with partners that have been working on reforestation, agroforestry and mangrove planting for about 15 years. They support the UN Sustainable Development Goals which means the actions have a positive ecological, social and economical impact. They look for partnerships with like-minded companies that want to invest in a greener world.

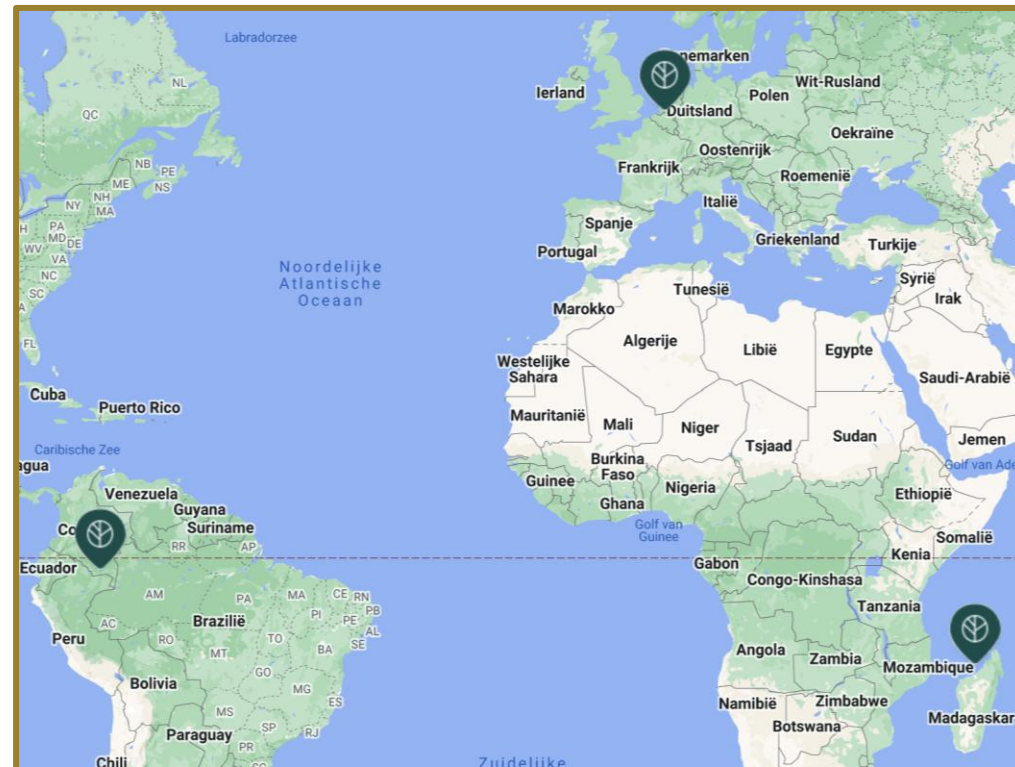

Transparency is very important when it comes to sustainability initiatives. Want to see which projects we support? Feel free to look at our impact board:

impact.gofamily.be/en/partners/xperience-tice

Do you want to compensate your trip by planting some trees? That is certainly possible! Feel free to ask us for more info.
